Lifelong Learning

Are you ready to work on your high school equivalency diploma or begin the path toward a college degree? How about building your computer skills – from the basics to web design? [FirstFind.org](https://www.firstfind.org) pulls together many of the leaning resources and services of the Westchester Library System.

A sample of what you can tap is listed in this brochure – [Online Learning Resources for All Ages](#). Live assistance in connecting is available. Many libraries loan Chromebooks so you can get online! Also consider Reconnect with Tech program.

Your local library has yet more – free learning opportunities, cultural events, and chances to connect with experts. Explore their website or see this county-wide view of online programming on this calendar – [burbio.westchesterlibraries.org](https://www.burbio.westchesterlibraries.org).
